

## USER MANUAL

### F9000 MOBILE VALIDATOR (Eng 01)

## How to use this manual

Thanks for choosing this innovative ISEO product.

This user manual was compiled to offer a guide on the installation of SIRIO.

For the installation of the devices, set-up of the opening and other operations not described herein, refer to the installation and configuration manuals, available in the download area of ISEO Zero1's website, at:

[www.iseozero1.com](http://www.iseozero1.com)

**The installation, initial set-up and changes to the setting, require the intervention of qualified staff, properly trained by ISEO Zero1.**

- Read this manual prior to use the device in order to ensure a safe and proper use
- Preserve this manual as future reference

## Informative icons

Please familiarise with the icons below, for an easy reading of the manual:

**Warning:** it indicates situations that could cause harm to people or animals

**Be careful:** it indicates situations that could cause damages to the device or other equipment

**Note:** it indicates notes, suggestions and additional information

## F9000 Mobile – Install the app

Install the F9000 Mobile app from this site: [app.iseo.com](http://app.iseo.com)

## F9000 Mobile – Configuration

Before to use this app, you have to be sure that the bluetooth is enabled on your mobile device.

When you open the app, you see this page.

To set the configuration push the «Info» button.

This two images shows you the status of the internet connection (on the left) and the bluetooth connection with the F9000 Mobile Validator (on the right).

If the background color is:

- DARK GRAY device connected
- BLUE an operation is in progress
- RED device unconnected
